

Mining Massive Datasets

Jisung Jeong / jisung0920.github.io

Reference

- Open Course :
Mining Massive Datasets (Stanford)
- Textbook :
Mining of Massive Datasets
(Jure Leskovec, Anand Rajaraman, Jeff Ullman)

1. MapReduce
2. PageRank
3. Locality-Sensitive Hashing
4. Distance Measures, Nearest Neighbors
5. Frequent Itemsets
6. Communities in Social Networks
7. Stream Algorithms
8. Recommender Systems
9. Dimensionality Reduction
10. Clustering
11. Computational Advertising
12. Machine Learning
13. More About MapReduce
14. More About Locality-Sensitive Hashing
15. More About Link Analysis

MapReduce

Physical Organization of Compute Nodes

Jisung Jeong / jisung0920.github.io

- 웹페이지 수 : 10Billion
 - 웹페이지 크기 : 20KB
- = 200TB

1. Physical Organization of Compute Nodes
2. Distributed File Systems
3. MapReduce
